

To, Talent Fusion

Getting a training over here was one of the best experiences I have had in my life. Talent Fusion environment is very friendly. They have very good trainers in fact the 'best trainers' and the best placements services.

I was very desperately looking out for a job in HR I tried a lot but couldn't get any because I was a fresher into this field but after doing the HR recruiter course in Talent Fusion I started getting 4-5 calls per day out of which many companies like Kelly, Adecco, D-man, Northern Impex & first degree I was shortlisted for all the companies & then finally planning to join Adecco. I would say it is all because of the training & support I got from talent fusion. In fact talent fusion started giving me interview calls even before I completed my training which is a great

achievement for me. ~~Respectfully~~

Coming to an end I would really
look forward to work with talent
fusion or atleast do an HR generalist
course sometime in future.
